## INTERVIEW SUMMARY

Sir:

A telephonic interview in the above-referenced matter occurred on April 25, 2006 between Examiner David S. Romeo and Applicants' representative Edward Ergenzinger. Applicants' representative provides below a summary of the interview.

The Advisory action mailed April 6, 2005 was discussed regarding reasons for non-entry Applicants' Amendment After Final. The Examiner suggested replacing the phrase "at least one biological agent" in claim 42 with the term "an antibody". The Examiner also indicated that limiting the claims to "a J chain encoded by nucleotides 1-213 of SEQ ID NO: 8" would be free of the prior art of record. The Examiner also suggested that the claims would be allowable if the term "portion thereof" was cancelled from the independent claims. The Examiner indicated that these changes to the claims could possibly be made by an Examiner's Amendment if all other claims were in condition for allowance.

It is not believed that extensions of time or fees for not addition of claims are required. However, in the event that extensions of time are necessary to allow consideration of this paper,
